Unleash your office performance

Fast, powerful and engineered to easily perform multiple tasks for workgroups of any size, the Xerox WorkCentre 7300 series boosts productivity and delivers spectacular results.

- Print and copy in black-and-white at up to 45 ppm and up to 35 ppm in color. In fact, WorkCentre devices boast the fastest print productivity in the industry when printing real-world office applications, thanks to advanced controller design and throughput technology.*

- The Xerox multitasking network controller handles multiple office tasks with speed and efficiency. Concurrently scan, print, copy, fax and route files to their next destination to maximize productivity.

- A scan speed of 45 color or 50 black-and-white scans per minute lets you quickly convert your paper documents into digital files for annotating, editing, sharing, archiving and reprinting.

* According to print productivity testing conducted by Buyers Laboratory Inc.

Powerful scanning, simplified

Cutting-edge solutions help you seamlessly create and distribute business-critical color documents to increase productivity and reduce costs.

• **Store** on the device

Scan to Mailbox
Stores scanned documents and documents sent from a PC to the device hard drive for easy retrieval or device reprinting

• **Routing** made easy

Scan to Email
Sends scans to email recipients directly from the front panel

Network Scanning
Uses templates to send scans to predefined locations

Job Flow Sheets
Enables simple workflows on the device for documents sent to or stored in the mailbox

Scan to PC
Scans a file to an existing shared folder on a PC

Scan to Home
Scans files to preassigned "home" destinations for fast routing

• **Repurposing** documents

Scan to PC Desktop®
Provides helpful tools for editing and document manipulation

• **Walk-up Access** to stored files

Thumbnail Preview
View Thumbnail preview of documents stored in the mailbox

• **Deliver** files faster

Advanced Compression Technology
Compresses file size for fast delivery and reduced network load

• **Convert** Documents

PDF   TIFF   JPEG   XPS

Multiple Formats
Scans can be saved in PDF, TIFF, mTIFF, JPEG or XPS format

Scan to Searchable PDF
Converts hard-copy documents to text-searchable PDFs
Responsible color

Give your entire business the competitive edge of color on demand with built-in controls to regulate and track usage.

• Auditron is a device-based feature that allows administrators to set black-and-white and color limits for copy, fax and scan functions.

• Xerox Standard Accounting software enhances the Auditron capability, with easy device enabling, remote management via the web, and helpful data sourcing that makes device deployment decisions easier in the future.

• Network Accounting integrates with industry-leading solutions to manage a fleet of output devices. It provides up-to-date information on how your WorkCentre device is used by account and user, including time and date of the activity.

• Color authorization via MS Active Directory™ makes it easy to integrate the WorkCentre device with existing IT systems. Network administrators can provide unlimited black-and-white output while limiting color printing and copying to select users for greater cost control.
Outstanding Xerox image quality

Advanced technologies ensure your business documents look their best.

• 1200 x 1200 dpi print resolution (up to 12 x 18 in. / SRA3) produces the image quality you need to get the results you expect.

• Emulsion Aggregate High Grade (EA-HG) toner — with particles engineered to have uniform size and shape — gives your work improved image quality and increased toner yield.

Traditional toner particles

Chemically grown EA-HG toner

• Belt Nip Fusing improves registration and delivers consistent image transfer.

• Trickle Charge Development feeds a mixture of toner and developer at the same time to ensure exceptional image quality from the first print to the last.

COLOR

Can you afford not to use color?

Strategic use of color makes it clear that you mean business, delivering measurable results for your bottom line.

Security at all points

Xerox is committed to helping you meet your security needs. Our system, software and solutions are designed with features that protect your critical information at all points of vulnerability.

Advanced ease of use

Intuitive user interfaces make quick work out of complex tasks.

- • At over 8 inches, the touch screen provides plenty of room for navigation screens and thumbnail previews, as well as customized screens using Xerox Extensible Interface Platform.

- • With a Xerox workflow that's consistent across previous-generation and current products, users will quickly embrace the user interfaces at the device, on the print drivers and over the web, for a drastically lowered learning curve and out-of-the-box productivity.

- • Xerox SMart Kit™ technology constantly monitors critical components of your WorkCentre device to predict and prevent downtime.

- • With walk-up convenience, users can print directly from a media card or USB storage device.

Easy device management

The WorkCentre 7300 series comes with the tools IT managers need for fast deployment and easy support.

- • CentreWare® IS Embedded Web Server automates installation, troubleshooting, cloning and upgrading, providing virtually effortless device management.

- • CentreWare Web software manages an entire enterprise-wide print environment — regardless of manufacturer mix — and helps ensure all devices run smoothly and reliably.

- • The Smart eSolutions system simplifies ownership, with hands-free, hassle-free, secure administration of Xerox devices for automatic meter reads and supply replenishment.

More than 90 percent of the WorkCentre device's everyday tasks are on the top level of the first screen of both the print driver and the control panel, providing fast, easy access to basic features.

Imagine the possibilities...
if you could make your multifunction printer work the way you work

The world is changing. There's constant pressure to do more with fewer resources. You know your business better than anyone. Now your multifunction printer can adapt to fit the way you work, not the other way around.

Your Xerox multifunction printer is now more productive, and your work processes are streamlined. Menus and languages specific to your business or workgroup, such as "fax to accounts payable" or "submit to claims department" can appear on the touch screen of your MFP. Xerox Extensible Interface Platform, or EIP, is at the heart of this. It enables a variety of applications that extends the power of your MFP by allowing you to securely find, save, print and share critical information with just a few easy steps right on your system's touch screen. That's Xerox, working for you.
The possibilities are endless.

Xerox Solutions made easier

- **Access and print information without the use of a computer**
- **Simply scan information and store it exactly where you want it**
- **Control costs with user-friendly accounting right from the device touch screen**
- **Display customized user preferences on the touch screen with the simple swipe of your ID card**
- **Simplify the process for complex fax distributions**
- **Improve your device management processes with custom displays**
- **Connect with a variety of advanced partner solutions created with your business in mind**

Printing Solutions

Imagine being able to access and print information without the use of a computer. Need your company's latest price list or a brochure on this week's hottest-selling product? Simply use the touch screen on your MFP to browse an online repository such as Xerox DocuShare®, Microsoft SharePoint® or Windows folders, select the document, and print it. No need to keep filing cabinets filled with material that quickly becomes outdated.

Print   Scan to repository   Scan to file   Scan to email

Scanning Solutions

Put your documents on autopilot. Transform hard copy forms into digital information with just a few simple steps. A new patient at a doctor's office fills out a medical history form, the receptionist securely scans the form, previews a thumbnail image on the MFP's touch screen and then sends the form to a folder named Patient Records. EIP-enabled applications make it possible.

Accounting Solutions

Control your printing costs. With Xerox accounting solutions you can set limits on the quantity of print, copy, scan and fax jobs individual users can make. Track MFP usage through a printed report, file download, or integration with a partner accounting solution.

Security and Authentication Solutions

The security of both your documents and your network resources is paramount. Xerox makes it easy for you to ensure that only authorized users access your MFPs. Protect the security of confidential documents with passwords or access cards.

Fax Server Solutions

Fax server solutions provide faxing capabilities even when a fax board has not been installed in an MFP. Faxes can be scanned in at the MFP or submitted from a user's desktop using a fax print driver. Sent and received faxes can be tracked and audited to ensure regulatory compliance.

Device Management Solutions

Xerox lets you manage and administer your Xerox MFPs easier and quicker. Use Xerox and industry-standard management tools to install, configure, report and troubleshoot devices on your network.

Partner Solutions

Xerox EIP enables an array of Business Partner solutions that extend the value of the WorkCentre 7300 series with advanced accounting, faxing and scanning capabilities.

High-Capacity Tandem Tray Option

Duplex Automatic Document Feeder
